

20 March 2024

Dear Colleague,

My name is Greg Gibson. I am a Douglas faculty member in the Chemistry department and I would like to serve as Member at Large on the college's Education Council (EdCo). I have served on EdCo's Policies Committee for 6 of the past 7 years, including a two-year period as chair. I am a former President of the University of Toronto Chemistry Graduate Student Society and I served three years as Douglas College Chemistry chair.

For years I have done the equivalent work of an EdCo member on the Policies Committee. I have aimed to draft policy that fairly balances competing needs and stresses accessible education for all students, is straightforward as possible, and bears in mind in the end-user experience. I hope to continue this work and bring this perspective to Council.

I have approached my previous leadership and service roles with emphasis on harmonious collaboration, relationship-building, and continually asking, "How can I help?" My colleagues describe me as conscientious and congenial.

I have found administrative and governance work at Douglas College to be engaging and fulfilling. With your support, I hope to serve as Member at Large on Education Council.

Sincerely,

Greg Gibson
