

As an aspiring advocate for our diverse student body, I, Avika Sawhney, am committed to ensuring that every voice is heard and represented in our college union.

As a student pursuing Diploma in Computer Science, I understand the challenges faced by students, and I vow to be their steadfast advocate. I pledge to ensure that every student's voice is not only heard but also actively integrated into the decision-making processes of the council.

I am committed to implementing tangible solutions that address the pressing issues affecting students. Whether it's advocating for affordable textbooks, enhancing campus resources or promoting mental health initiatives, I will tirelessly work to enact positive change.

My vision is to enrich college experience by fostering a deeper sense of community and engagement campus-wide. Through increased student participation, we can cultivate a more dynamic and inclusive atmosphere at Douglas College. By fostering collaborative efforts and open dialogue, we can pave the way for a more equitable and enriching educational experience for all.

I will lead the charge in making education more accessible and will endeavor to strengthen student grant funds, thus expanding opportunities for higher education to students from all backgrounds.

Together, let's build a brighter future for Douglas College.
