

Platform Statement

Over the past year, I have proudly served on the **Douglas College Education Council (EdCo)**, actively participating in meetings and advocating for student interests. My experience has strengthened my understanding of academic policies, curriculum changes, and the challenges students face. If re-elected, I will continue to ensure that student voices are at the forefront of every decision made at EdCo.

My Priorities:

Advocating for Affordable & Accessible Education: I will continue pushing for tuition transparency, increased financial aid, and expanded bursary opportunities to ease student financial stress.

Enhancing Academic Support & Resources: I will work towards improved access to tutoring, academic advising, and mental health resources to help students succeed in their studies.

Strengthening Curriculum & Learning Opportunities: I will advocate for flexible course delivery options, including more hybrid and online courses, to accommodate diverse student needs.

Ensuring Student Representation in Decision-Making: I will be a strong voice for students in discussions about academic policies, ensuring they align with student needs and aspirations.

I am passionate about **ensuring students have a say in their education** and will continue working hard to make a difference. With my experience, dedication, and commitment to student advocacy, I am ready to serve you again.

Vote Amarpreet Singh for Education Council – because your education matters!
