

Hello, I am Winston Ebiyomare, currently pursuing a PDD in Data Analytics. As a student who is deeply invested in our academic community, I want to enhance our educational experience through collaboration and thoughtful advocacy.

My Goals:

- **Strengthen Communication:** I plan to work closely with student organizations to ensure your academic concerns are clearly communicated to the Education Council. By using these established networks, we can address issues like curriculum development, course availability, and academic support services.
- **Promote Transparency:** I will advocate for clear, accessible updates on policy changes, curriculum developments, and decisions made by the Education Council. Keeping everyone informed empowers us to engage more meaningfully in our educational experience.
- **Support Inclusive Curriculum Development:** I am committed to promoting diverse perspectives within our curriculum. By working with faculty and administration, we can enrich our academic programs to better reflect the diversity of our student body.

I know that meaningful change takes time and collaboration. While immediate results may not always be possible, I am dedicated to working steadily toward a more inclusive and supportive academic environment for all.

I humbly ask for your support in this election. Together, we can continuously improve our educational experience at Douglas College.

Thank you for considering my candidacy.
