- N: Course Content: The following global ideas guide the design and delivery of this course:
 - 1. Learning from experience is a characteristic of exceptional practitioners.

Practicum settings create opportunities for students to refine their skills of reflection and adaptation in response to their practice experience.

- 2. Learning in a practicum setting provides opportunities to examine assumptions and biases.
- 3. Field settings provide opportunities to synthesize personal and classroom experiences and create openings for new learning. Learners gain both insight and practice knowledge from field experiences.
- 4. Observing, participating with, and receiving guidance from experienced practitioners is crucial for effective practice.
- 5. Practitioners who regularly and accurately assess their performance and who set goals for their ongoing professional development are more likely to be effective in their work.
- 6. A well-developed personal philosophy of practice is a cornerstone of competent human service practice.
- 7. Experience in the field settings allows learners to demonstrate and enhance their abilities to problem solve, be flexible, think creatively and take responsibility for their actions.
- 8. Reflecting on and evaluating practicum experiences with clients, colleagues and mentors maximizes field based learning experiences.
